

National Nominating Committee- Collegiate Representatives

As a collegiate member of Alpha Chi Omega, you have the opportunity to select the future leadership of the Fraternity by serving on the National Nominating Committee (NNC). Collegiate women bring an important perspective to the process of slating the candidates for National President and the five national vice presidents. The NNC needs your voice to represent collegiate members nationwide!

The NNC is charged with:

- Requesting nominations from the membership
- Facilitating the interview process of the nominees
- Evaluating women who have demonstrated the vision, skills and dedication to be elected leaders of the Fraternity.

The work of the 2018-20 NNC will culminate in the spring of 2020 when the slate of candidates is presented to the 2020 convention delegates for election to the National Council.

How Are NNC Collegiate Candidates Chosen?

In accordance with Fraternity policies, five NNC alumnae members and one alumna alternate were elected during the 2018 National Convention. During the first year of their term, these six alumnae select one collegiate member and one alternate collegiate member to serve on the 2018-20 NNC. Students serve on the NNC for a one-year term beginning August 1, 2019.

Qualified nominees should be:

- Alpha Chi Omega collegiate members in good standing
- Knowledgeable about important issues of the Fraternity and/or campus culture
- Able to participate in all NNC conference calls and one in-person meeting
- Able to maintain strict confidentiality about prospective nominees and the deliberations of the committee

Applications

Individuals interested in applying should complete the application available in early January on alphachiomega.org. Please send your application via email to heatherclaybrook@hotmail.com or by mail to Heather Claybrook, postmarked no later than April 1, 2019.
